

The small washing, disinfecting and impregnating machines

CombiClean

These machines are especially designed for the concerns of fire fighters.

CombiClean 65 – with stainless steel front

CombiClean 55 – without stainless steel front

The microprocessor controlled programs allow to wash, disinfect and impregnate masks, service clothes (even Nomex® or Kermel®) and chemical protection suits according to the respective regulations.

A combination of suspension struts absorbs vibrations and reduces noises to a minimum.

An anchoring on the ground is not necessary.

Advantages:

- Washing program for masks
- special Nomex® + Kermel® programs
- Connection to cleaning agent dosing
- Drum and front made of stainless steel
- Optional water controlled drain valve or special lye pump
- Large doorway for easy handling
- Electronic temperature monitor for a safe disinfection

Options:

- Multiple-way wastewater separation

Accessories:

- Washing Bag
Order no.: 79 04 013
- Visor Protection Washing Bag
Order no.: 65 70 003

Approved

Detergents and Cleaning agents:
